II. The second envelope shall contain the financial proposal and shall be marked in bold letters as "FINANCIAL BID". Prices

shall be inclusive of all taxes & duties and quoted in the proforma enclosed at “Appendix F” as per scope of work / service to be rendered.

#### 5. Tender Validity Period and renewal of contract

The tenders shall remain valid for 5 years for acceptance and the prices quoted shall remain for the duration of the contract with 3% escalation on the quoted financial bid per annum with respect to preceding year. The contract may be extended for another term based on review of performance and with mutual consent.

#### 6. Tender Submission

The two envelopes containing both technical and the financial bid shall be put in a bigger envelope, which shall be sealed and superscripted with **Tender Enquiry No. 4431/CFW/2016, Dated: 01.06.2016** due for opening on<Insert due date for Opening> The offer shall contain no interlineations or overwriting except as necessary to correct errors, in which cases such correction must be initialed by the person or persons signing the tender. In case of discrepancy in the quoted prices, the price written in words will be taken as valid.

#### 7. Opening of Tenders:

The technical bid will be opened at the time & date specified in the schedule. The bidders may attend the bid opening if they so desire.

## **SECTION - IV**

### **EVALUATION OF TENDERS**

#### **1. Scrutiny of Tenders**

1. The tenders will be scrutinized by the selection committee appointed by the authority to determine whether they are complete and meet the essential and important requirements, conditions and whether the bidder is eligible and qualified as per criteria laid down in the Tender Enquiry Documents. The bids, which do not meet the aforesaid requirements, are liable to be treated as non-responsive and may be ignored. The decision of the purchaser as to whether the bidder is eligible and qualified or not and whether the bid is responsive or not shall be final and binding on the bidders. Financial bids of only those bidders, who qualify on technical bid, will be considered and opened.

#### **2. Infirmary / Non-Conformity**

The purchaser may waive minor infirmity and/or non-conformity in a tender, provided it does not constitute any material deviation. The decision of the purchaser as to whether the deviation is material or not, shall be final and binding on the bidders

#### **3. Bid Clarification**

Wherever necessary, the purchaser may, at its discretion, seek clarification from the bidders seeking response by a specified date. If no response is received by this date, the purchaser shall evaluate the offer as per available information.

## **SECTION - V**

### **SCOPE OF THE WORK**

The Service Provider shall be responsible for operationalization of Dialysis facility at district/ sub-district hospital to the patients referred by District Hospital. Ownership status of all movable assets created from the investments made by the Service Provider shall remain with the Service Provider. This could be achieved by a mix of any of the following across several districts in the state:

- I. The service provider is allotted a space (@ 120 sq. ft. per machine) by the authority and the service provide shall make complete arrangements to make the dialysis facility operational (should factor all required infrastructure, HR (trained Nephrologists, Medical officers, Nurses, technicians), supportive infrastructure, dialyzer and all other consumables etc., operational and maintenance cost for the project including consumables and facility for pediatricpatients.
- II. The decision to refer a patient for dialysis in District/ hospital should originate from a qualified nephrologist in a Government hospital. In all cases, the diagnostic tests (Urea, Creatinine, Sodium, Potassium, complete bio-chemistry & hematology profile) before and after the dialysis should be done through the free diagnostic program OR governments own laboratory. Incorrect laboratory tests may lead to wrong referral for dialysis hence due precautions would be taken to refer a patient for dialysis and laboratory reports before and after the dialysis cycle should be recorded. A minimum of 4 Dialysis machines plus one dedicated machine for infective cases (Hepatitis B, Hepatitis C, HIV etc)
- III. The service provider arranges for a space at its own cost in proximity to the hospital within 3 kilometers of the hospital premises in district where government cannot provide space for the facility and then makes complete arrangements as detailed above
- IV. The facilities such as observation rooms, recovery rooms among other should be provided.
- V. Provide dashboard for monitoring of service delivery with due diligence to patient privacy for administrative Staff. Treating Nephrologist should have complete access to the dashboard.
- VI. SMS based appointment system for all patients enrolled for services.

The obligations of the service provider/firm under this service contract shall include all service activities and commitments. The details of various services required at different locations and type of facilities is given in Appendix 'A'. The Service Provider shall not be entitled to levy any charge on the patients. The services shall be provided completely cashless to all patients referred by district/sub-district hospitals.

## **SECTION - VI**

### **ELIGIBILITY CRITERIA**

1. The Bidder shall be a sole provider or a group of providers (maximum 3) coming together as Consortium to implement the Project, represented by a lead partner. The bidder cannot be an individual or group of individuals. A bidder cannot bid as a sole provider as well as a partner in a consortium. No bidder can place more than one bid in any form in the state. In support of this, the bidder's letter shall be submitted as per proforma in Appendix 'B'. The Service provider should be registered as a legal entity.
2. The Bidder shall have a minimum of three years of experience in carrying out similar type of assignment / service in private or public sector. In support of this, a statement regarding assignments of similar nature successfully completed during last three years should be submitted as per proforma in Appendix 'C'. Users' certificate regarding satisfactory completion of assignments should also be submitted. The assignment of Govt. Depts. / Semi Govt. Depts. should be specifically brought out. (The decision of the Purchaser as to whether the assignment is similar or not and whether the bidders possess adequate experience or not, shall be final and binding on the bidders.)
3. Operated & managed dialysis facilities, having at least a total of 50 Hemodialysis machines.
4. The above experience could be demonstrated by the single bidder or the lead member of the consortium. In case of consortium bidding, aggregate financial turnover of only those members of consortium would be considered who qualify the technical eligibility independently.
5. The facilities should have operational Hemodialysis facility for at least 3 years prior to the submission date
6. The Bidders are not presently blacklisted/ Debarred by the Purchaser or by any State Govt. or its organizations by Govt. of India or its organizations.
7. The bidder shall declare all ongoing litigations it is involved in with any government agency/state/central department
8. The principal bidder/lead partner shall have an average turnover of Rs 10.00 Crores per annum in last three financial years
9. In case of audited financials not being available for the last completed financial year, CA certified provisional financials should be provided
10. The principal bidder/lead partner shall be legally responsible and shall represent all consortium members, if any, in all legal matters

## **SECTION - VII**

### **TERMS AND CONDITIONS**

#### **1. Signing of Contract**

The purchaser shall issue the Notice for Award of Contract to the successful bidder within the bid validity period. And the successful bidder will be required to sign and submit the contract unconditionally within 15 days of receipt of such communication.

#### **2. Modification to Contract**

The contract when executed by the parties shall constitute the entire contract between the parties in connection with the jobs / services and shall be binding upon the parties. Modification, if any, to the contract shall be in writing and with the consent of the parties.

#### **3. Performance Security**

a) The successful bidder shall furnish a performance security in the shape of a Bank Guarantee issued by a Nationalised Bank in favour of Tender Inviting Authority for an amount equal to 5% of the total contract value. The Bank guarantee shall be as per proforma at "Appendix: G" and remain valid for a period, which is six months beyond the date of expiry of the contract. This shall be submitted within 15 days (minimum) of receiving of Notice for Award of Contract, failing which the EMD may be forfeited and the contract may be cancelled.

b) If the firm / contractor violate any of the terms and conditions of contract, the Performance Security shall be liable for forfeiture, wholly or partly, as decided by the Purchaser and the contract may also be cancelled.

c) The Purchaser will release the Performance Security without any interest to the firm / contractor on successful completion of contractual obligations.

#### **4. Compliance of Minimum Wages Act and other statutory requirements**

The bidder shall comply with all the provisions of Minimum Wages Act and other applicable labour laws. The bidder shall also comply with all other statutory provision including but not limited to provisions regarding medical education and eligibility criteria of human resources used by the bidder for providing the services, biomedical waste management, bio-safety, occupational and environmental safety. Legal liability of the services provided by the bidder shall remain with the service provider but in case of any death the certificate shall be issued by the government

doctor. The Service provider shall maintain confidentiality of medical records and shall make adequate arrangement for cyber security.

5. Income Tax Deduction at Source Income tax deduction at source shall be made at the prescribed rates from the bidder's bills. The deducted amount will be reflected in the requisite Form, which will be issued at the end of the financial year.

6. Periodicity of Payment The payment will be made on weekly basis not extending beyond 12 noon of the last bank working day of the week through ECS for all invoices raised. The purchaser shall give standing instructions to the bank for implementation of this requirement. The bidder will raise its invoice on completion of services during this period duly accompanied by evidences of services provided. The payment will be subject to TDS as per Income Tax Rules and other statutory deductions as per applicable laws.

#### 7. Damages for Mishap/Injury

The purchaser shall not be responsible for damages of any kind or for any mishap/injury/accident caused to any personnel/property of the bidder while performing duty in the purchaser's / consignee's premises. All liabilities, legal or monetary, arising in that eventuality shall be borne by firm/ contractor.

#### 8. Termination of Contract:

The purchase may terminate the contract, if the successful bidder withdraws its tender after its acceptance or fails to submit the required Performance Securities for the initial contract and or fails to fulfill any other contractual obligations. In that event, the purchaser will have the right to purchase the services from next eligible bidder and the extra expenditure on this account shall be recoverable from the defaulter. The earnest money and the performance security deposited by the defaulter shall also be recovered to pay the balance amount of extra expenditure incurred by the purchaser.

#### 9. Arbitration

- a) If dispute or difference of any kind shall arise between the purchaser and the firm/ contractor in connection with or relating to the contract, the parties shall make every effort to resolve the same amicably by mutual consultations.
- b) If the parties fail to resolve their dispute or difference by such mutual consultations within thirty days of commencement of consultations, then either the purchaser or the firm/contractor may give notice to the other party of its intention to commence arbitration, as hereinafter provided. The applicable arbitration procedure will be as per the Arbitration and Conciliation Act, 1996 of India. In that event, the dispute or difference shall be referred to the sole arbitration of an officer to be appointed by the <insert tender issuing authority> as the arbitrator. If the arbitrator to whom the matter is initially referred is transferred

or vacates his office or is unable to act for any reason, he / she shall be replaced by another person appointed by <insert tender issuing authority> to act as Arbitrator. Such person shall be entitled to proceed with the matter from the stage at which it was left by his predecessor. The award of the provision that the Arbitrator shall give reasoned award in case the amount of claim in reference exceeds Rupees One Lac (Rs.1,00,000/-) c) Work under the contract shall, notwithstanding the existence of any such dispute or difference, continue during arbitration proceedings and no payment due or payable by the Purchaser or the firm / contractor shall be withheld on account of such proceedings unless such payments are the direct subject of the arbitration. d) Reference to arbitration shall be a condition precedent to any other action at law. e) Venue of Arbitration: The venue of arbitration shall be the place from where the contract has been issued. 10. Applicable Law and Jurisdiction of Court: The contract shall be governed by and interpreted in accordance with the laws of India for the time being in force. The Court located at the place of issue of contract shall have jurisdiction to decide any dispute arising out of in respect of the contract. It is specifically agreed that no other Court shall have jurisdiction in the matter.

#### 11. Other Terms & Conditions

- a) The Project will be awarded for a period of 5 years and the Service Provider will be obliged to establish, manage and operate the Project in accordance with the provisions of a Contract Agreement and terms and conditions therein. It could be cancelled at any time after providing an opportunity of hearing by the Authority, in case the contractor does not follow the rules, regulations and terms and condition of the contract.
- b) The Authority may provide the required space, for establishing the Project. A lease agreement shall be enforced for the full term of the contract at value and terms declared by the authority. A Possession Certificate in plain paper shall be issued while handing over the above mentioned space. In case the authority is unable to provide the space; the service provider may carry these services at its owned/rented/leased space or partner with an already existing Dialysis facility near the hospital. In any of these cases refurbished Dialysis machine is not allowed.
- c) New Installation & continuation: The service provider shall commission the Dialysis facility within 90 days of the signing of the contract by both parties. In case of continuation of the service provider for the subsequent contract period, this time period shall not be valid.
- d) Technology Up gradation: The machine shall be suitably upgraded by the service provider under following conditions:

- (i) Review by a board appointed by Authority upon assessing the need for a technology up gradation. Such reviews should not be made in less than one year.
- (ii) Upon declaration of any national or international guideline accepted by the Government prohibiting the use of earlier (currently installed) technology
- (iii) After completion of 2 contract periods each not less than 5 years, the entire Equipment machinery shall be replaced.

e) List of tests & their associated cost may be furnished as per Appendix F

f) One Dialysis facility would be installed for every district/sub-district hospital; for districts having population less than 7.5 Lakhs, one facility may be installed for every 2 or more districts or as per state's discretion. The list provided by state is attached as appendix A.

g) All the pre-requisites such as civil, electrical, air-conditioning, computer or any other changes in the site for installation of machine will be executed by the service provider at its own cost, with due permission of the Authority (permission required only if the space is provide by the administration). The district hospital administration will not be responsible for any loss/ damage to the machine/ property due to natural hazard and licensee will take adequate insurance cover at his own risk & liability for all damages arising out due to any unprecedented reasons. The service provider shall provide round the clock security services for the Dialysis facility at its own cost for the entire period of contract. The contract and terms thereof shall be governed by indemnification clause.

h) All expenses on account of man power, electricity, water and other maintenance of premises and the machine, security or any other expenses incurred in the day to day running of the machine shall be borne by the provider.

i) The service provider shall provide for storage of soft copy and hard copy of all records at the District/Sub-district Hospital at its own cost. In case of change of service provider for any reason, the stored data must be transferred to the new provider for continuation of storage.

j) Service Provider shall ensure best quality of tests and protocols and shall submit a half yearly report of clinical audit done by a third party or as nominated by the authority. Service provider to provide the Kt/v and standardised Kt/V report for each patient to the committee.

k) Annual review of performance and observance of terms & conditions shall be carried out by a committee which shall include CMO & Head of department of Nephrology of the Govt. Teaching hospital along with other members nominated

by the authority. The report of this annual review shall form the basis for extension of the contract annually within the contract period.

- l) The service provider will have to maintain an uptime of 90% with maximum 7 days of downtime at a stretch of any single dialysis machine of the facility. In case the service provider fails to do so, the provider shall pay a sum equivalent to cost of a single dialysis multiplied by total number of dialysis done per day during the given month, for each day of shutdown beyond 7 days. If shut down extends beyond 30 days due to technical and/or administrative reasons on the part of service provider, the contract may be cancelled. Contractor shall make alternative arrangements for provision of dialysis (including free transportation of patients) in case the machine is out of order/ broken down for period greater than 24 hours. The rates at which the Authority has engaged the service provider shall not change in any case.
- m) State authority shall make payment to the service provider for its services on weekly basis through ECS for all invoices raised for the previous week. The payment should be made latest by Saturday 12 Noon every week to the service provider.
- n) A no-fee receipt shall be provided by the service provider to every patient. A copy of all such receipts shall be submitted on a weekly basis by the service provider to the District Hospital Authority. This will form the basis of weekly payment by purchasing authority to the service provider for the said services. All receipts shall be subjected to a third party annual audit and the audit report submitted as part of annual work report of the service provider for that facility.
- o) The following records shall be maintained on a daily basis by the service provider:
  - p) Daily patients register including outside as well as for patients referred by District Hospital to be separately maintained.
  - q) Log book for record of any breakdown/shut down of the machine/facility.
- r) The service provider shall not sell or transfer any proprietary right or entrust to any other third party for running the facility. The service provider may however refer the test to another center in case of breakdown/shutdown ensuring all other conditions pertaining such as services, reports, records, patient transport and safety of processes and procedures in the referred center.
- s) The provider shall take a third party insurance policy to cover the patients sent by the District Hospital against any mishap during patient transport, inside the dialysis facility and for consequences arising due to reporting error. Conforming to the provision of the consumer protection act shall be the sole and absolute responsibility/liability of the service provider.

- t) After closure of the contract agreement between the service provider and the authority, the service provider shall vacate the space occupied, if provided by the authority, within a period of 60days.
- u) Availability of Space, Electricity, water, shall be provided by the authority. v) The service provider shall provide a resuscitation facilities with crash cart for providing lifesaving support if required by patients within the dialysis facility.
- w) Provider shall arrange for appropriate and adequate signage and IEC (Information education- communication) activities for facility as decided by the authority.
- x) The provider shall abide by all the guidelines issued by the Authority and statutory bodies. In case of violation the contract could be terminated after providing an opportunity of hearing to the contractor, at one month's notice. Dispute resolution shall be as per arbitration clause given in the contract.
- y) The Authority shall receive Bids pursuant to this RFP in accordance with the terms set forth herein as modified, altered, amended and clarified from time to time by the Authority, and all Bids shall be prepared and submitted in accordance with such terms on or before the date specified in Clause for submission of Bids.
- z) The Service provider shall be obligated to provide 24X7( round the clock) dialysis services, if required to meet the work load ensuring that no patient has a wait time of more than 24 hours from the scheduled dialysis session. Further, the increase in dialysis units shall be according to space availability and in case of space constraint the service provider shall create a facility within 3 Km of district hospital to meet patient load.

The bidder is expected to deliver the services for a minimum period of five years 4. The bidder has to deposit 5 % of the contract value as performance security in form of Irrevocable Bank Guarantee with validity through the duration of the contract.

The cost per Hemodialysis session Rs...../- (in words Rs.....)

The prices shall be firm and inclusive of all taxes and duties presently in force.

Signature..... Name.....

## APPENDIX -G

### Proforma For Bank Guarantee

To < Name, Designation and Office Address of Tender Inviting Authority>  
WHEREAS.....(Name and address of the Service Provider) (Hereinafter called “ the Service provider” has undertaken, in pursuance of contract No..... dated ..... (Herein after “the contract”) to provided Dialysis services. AND WHEREAS it has been stipulated by you in the said contract that the service provider shall furnish you with a bank guarantee by a scheduled commercial bank recognized by you for the sum specified therein as security for compliance with its obligations in accordance with the contract; AND WHEREAS we have agreed to give such a bank guarantee on behalf of the service provider; NOW THEREFORE we hereby affirm that we are guarantors and responsible to you, on behalf of the service provider, up to a total of..... (Amount of the guarantee in words and figures), and we undertake to pay you, upon your first written demand declaring the service provider to be in default under the contract and without cavil or argument, any sum or sums within the limits of (amount of guarantee) as aforeside, without your needing to prove or to show grounds or reasons for your demand or the sum specified therein. We hereby waive the necessity of your demanding the said debt from the service provider before presenting us with the demand. We further agree that no change or addition to or other modification of the terms of the contract to be performed there under or of any of the contract documents which may be made between you and the service provider shall in any way release us from any liability under this guarantee and we hereby waive notice of any such change, addition or modification. This guarantee shall be valid up to 6 months after the contract termination                      date                      .....                      (indicate                      date)  
..... (Signature with date of the authorized                      officer                      of                      the                      Bank)  
..... Name and designation of the officer                      ..... Seal, name & address of the Bank and address of the Branch

## **APPENDIX -H**

### **Declaration By Bidder**

I / We ..... agree that we shall keep our price valid for a period of one year from the date of approval. I / We will abide by all the terms & conditions set forth in the tender documents No. .... / I / We do hereby declare I / We have not been de- recognized / black listed by any State Govt. / Union Territory / Govt. of India / Govt. Organisation / Govt. Health Institutions.

Signature of the bidder:

Date :

Name & Address of the Firm:

Affidavit before Executive Magistrate / Notary Public in Rs.100.00 stamp paper.

## **APPENDIX -I**

### **Records for Procedure**

Dialysis centre shall maintain a record system to provide readily available information on:

1. Patient care
  - a. Dialysis charts
  - b. Standing order for hemodialysis – updated quarterly
  - c. Physician's order
  - d. Completed consent form
  - e. Patient's monitoring sheet
  - f. Standing order for medication
  - g. Laboratory results
  - h. Confinements with corresponding date and name of hospital
  - i. History and physical examination
  - j. Complication list
  - k. Transfer/referral slip (for patients that will be transferred or referred to l. another health facility)
2. Incident and accident (in logbooks)
  - a. Complications related to dialysis procedure
  - b. Complications related to vascular access
  - c. Complications related to disease process
  - d. Dialysis adequacy of patients on thrice weekly treatments
  - e. Outcomes
  - f. Staff/patient's hepatitis status
3. Staff and patient vaccination and antibody titer status as applicable
  - a. Hepatitis B (double dose) – 0, 1,2,6 months
  - b. Influenza – annually
  - c. Pneumococcal – every 5 years
4. Water treatment
  - a. Bacteriological
  - b. Endotoxin
  - c. Chemical
5. Facility and equipment maintenance schedule
  - a. Preventive maintenance
  - b. Corrective measures

**APPENDIX -J**  
**Equipment List**

Emergency equipment: The following equipment should be provided for by the service provider:

S. No Name of Equipment

1 Resuscitation equipment including Laryngoscope, endotracheal tubes, suction equipment, xylocaine spray, oropharyngeal and nasopharyngeal airways, Ambu Bag- Adult & Paediatric (neonatal if indicated) 2 Oxygen cylinders with flow meter/ tubing/catheter/face mask/nasal prongs 3 Suction Apparatus 4 Defibrillator with accessories 5 Equipment for dressing/bandaging/suturing 6 Basic diagnostic equipment- Blood Pressure Apparatus, Stethoscope,, weighing machine, thermometer 7 ECG Machine 8 Pulse Oximeter 9 Nebulizer with accessories 10 Dialyzer reprocessing unit 11 ACT machine 12 Cardiac monitors 13 Vein finder 14 All required consumables for adult and pediatric patients

## **APPENDIX -K**

### **Records for Procedure**

It is recommended to have the following minimum standards and staffing pattern for the Dialysis unit. SI .No Staff Ratio

- 1 Qualified Nephrologist / MD Medicine with one year dialysis training from recognized center performing one visit every fortnight and clinical review for all patients
- 2 Medical Officers (on duty) – One doctor (MBBS) per shift for a maximum of 10 machines.
- 3 Dialysis technicians/ nurses: One technician for every 3 machines and one dedicated for dialysis machine for patients with blood borne infections per shift
- 3 Dietician (optional)
- 4 sweepers 1 for every five machine per shift
5. Hospital attendant 1 for every five machines per shift

## **APPENDIX -L**

### **Hemodialysis Machine & associated Systems**

A. HD machine: Mandatory 1. Blood pump to achieve a unidirectional flow up to 400ml/min 2. Heparin pump 3. Arterial line and venous line pressure monitors 4. Functional air bubble detector 5. Mixing proportion of unit with bicarbonate dialysis facility, rate of 6. Dialysate delivery from 300 to 500 ml/min or more. 7. Conductivity meter 8. Functional blood leak detector 9. Dialysate temperature regulator that has a range of temperature 35 to 39°C 10. Volumetric UF control 11. Safety devices functioning alarms, venous blood clamp 12. Dialysate filter 13. The HD machine should be FDA approved or European CE marked.

B. HD machine: Optional 1. On line blood volume monitor 2. On line urea clearance 3. Sodium profiling of dialysate 4. Single needle dialysis facility 5. Hemodiafiltration 6. Optical detector

C. Monitoring and Evaluation of HD machine

1. Conductivity of the final dialysate being delivered to the dialyzer should be checked before every treatment. According to manufacturers' instructions, the conductivity should be checked with an independent reference meter which is known to be properly calibrated. Conductivity must be within the manufacturer's stated specifics. The frequency of checking with independent reference meter should be as per manufacturer's guideline and also every time the machine is calibrated and repaired.
2. When used, the pH of bicarbonate dialysate should also be confirmed before each treatment. If the pH is below 6.5 or above 7.5, dialysis should not be started, even when conductivity within limits acceptable. The pH can be checked with a similar pH meter.
3. Temperature should also be within the manufacturer's specifications. Temperature may be checked with an independent reference meter or with a reference thermometer.
4. Absence of residual germicide should be verified on all delivery systems connected to a single water treatment "loop" before dialysis begins. Such testing must be performed with an assay known to detect the minimum standard level.
5. A test of proper functioning of the air/foam detector should be performed before dialysis is initiated. This test should be a direct test of function of the alarm, causing interruption of the blood pump an actuation of the blood line clamp, either by introducing air into the venous level detector or by removing the tubing so that air is sensed by the

detector as recommended by the device manufacturer. 6. The blood detector must be checked for proper armed status according to the method recommended by the manufacturer. 7. The user should perform applicable tests of the UF control system as prescribed by the manufacturer. 8. All other alarms must be tested according to the manufacturer's instructions for use before every treatment including low and high conductivity alarm, low and high temperature alarm, dialysate pressure alarm, water pressure alarm, etc. Documentation of that testing should be performed. If the particular delivery system is equipped with a "self-alarm check" mode, it is important that the user understand that, most often, it is a check of the electronic circuitry, and not a confirmation of some of the vital functions of specific alarms. 9. Observation of dialysate flow should be made while the machine is in a "dialyzing" mode. Absence of dialysate flow should be confirmed when the machine is in "bypass" mode actuated by both manual setting of the machine to bypass or via any of the alarm functions that will cause the machine to enter a bypass mode. 10. The automatic "self-test" should be performed if this facility is available prior to each HD treatment to confirm proper performance of operative and protective functions of the machine and should never be bypassed. Recommendation for once monthly evaluation and monitoring: (D) 11. Periodic (Monthly) Microbiological monitoring: water for production of dialysate and actual dialysate proportioned and exiting the dialyzer should be monitored for bacterial levels on no less than a monthly basis. Microbiological monitoring is performed to establish ongoing validation of proper disinfection protocols. The sampling should be done at the termination of dialysis at the point where dialysate exits the dialyzer. Results for total

Microbial counts shall not exceed 2,000 colony forming units per ml. 12. Assessing trends: Pertinent information, i.e., bacterial levels, conductivity and pH readings, etc., should be logged on a chart across a page so that readings can be examined and compared over an extended period of time. This tool makes it possible to compare current readings to those taken during the past several days/weeks/months. D. Dialyzer (filter) specifications: The hollow fiber dialyzer forms the central component of dialysis delivery system, where in actual process of transfer of solutes and water occurs across a semi-permeable membrane. A large array of dialyzers is available for clinical use with several permutations and combinations based on biocompatibility, flux and surface area of the dialyzer. Most often a single type of

dialyzer may be sufficient in most patients in a dialysis unit. However, some patients may have specific needs and may require change in the dialyzer specifications. Hence, dialyzers with specifications other than that generally used in the dialysis unit may also be routinely stocked or should be made available at a short notice when the need arises.

E. Recommendations for dialyzer use in HD:

1. Biocompatible, synthetic (e.g., polysulfone, polyacrylonitrile, polymethylmethacrylate) or modified cellulose membrane (e.g., cellulose acetate) should be preferred over unmodified cellulose membranes (e.g., cupraphane). Cupraphane membranes should only be used when patient is intolerant to other biocompatible membranes..
3. Either low flux or high flux biocompatible membrane may be used for regular HD.
4. An allergic reaction to a specific dialyzer is rarely encountered in some patients. In such situation, the particular dialyzer should be avoided and this should be specifically written in bold letters on the dialysis folder of the patient to prevent its inadvertent use.
5. Dialyzer may be use for NOT more than 10 times or till the bundle volume is >70% of original capacity and in such cases reused only for the same patient after due sterilization using dialyzer reprocessing unit. Dialyzer should not be reused for sero positive cases on isolated machine.
6. Blood line, Transducer Protectors, IV sets, Catheters any other disposables should not be should NOT be reused .

F. Dialysis fluid specifications: Dialysate, or dialysis fluid, is a non-sterile aqueous solution with an electrolyte composition near that of normal extracellular fluid. Its electrolyte composition is designed to correct the metabolic imbalance that occurs as a result of azotemia. Dialysate concentrates are manufactured commercially in liquid or powder form. The chemicals present in the dialysate have access, via the dialyzer, to the bloodstream of patients undergoing dialysis. Hence, the proper concentration of all of these chemicals as well as the quality of the concentrate and the water used to dilute the concentrate is critical. The following is to be ensured:

1. Electrolyte content of dialysate includes sodium, potassium, chloride, magnesium, calcium, glucose (optional), and bicarbonate as a buffer. The concentration of HD solutions should be such that after dilution to the stated volume the final concentrations of the ions expressed as mmol/L are usually in the following ranges: Sodium 135-145, 40 Potassium 0-4, Calcium 1.0-2.0, Magnesium 0.25-1.0, bicarbonate (32-40, Chloride 95-110. 42; Sodium concentration may be adjusted to levels outside the range of 135-140 mmol/L by HD machines with variable sodium capabilities only when prescribed by physician in charge.
2. Commercially produced

concentrates are classified as medical devices and should be approved for clinical use by appropriate authority. The dialysate should contain bicarbonate as the buffer

3. The final diluted dialysate should be analyzed every 6 months, with every new batch of dialysate and after each major servicing/repair of dialysis machine.

4. Water used to prepare the dialysate must have a bacteriological colony count of less than 200 CFU/ml. Bacteriological analysis of the dialysate shall be carried out at least 2 monthly, preferably every 15 days. The colony count in dialysate samples collected at the termination of dialysis a) in a single pass system or b) in a re-circulating single pass system at the periphery of the re-circulating chamber containing the dialyzer shall be less than 2000 colony-forming units/ml. Dialysate containing glucose at 100- 200 mg/dl concentration should be used.

G. Recommendations for storing and mixing dialysis concentrate:

1. Store and dispense dialysate concentrates as though they were drugs. Ensure that all personnel in the facility are aware of the types of dialysate concentrates available, even if currently only one type is being used.

2. Develop a policy, management, and storage system that will effectively control the mixing and dispensing of all concentrates. Storing concentrates according to type, composition, and proportioning ratios should reduce the risk of mismatching concentrates. Prohibit access to storage areas and allow only authorized, specially trained personnel to mix and dispense concentrates.

3. Double-check and record concentrate formulas on the patient's record. Consider a procedure for countersigning patient and storage records. Do not dispense concentrates from large containers into smaller ones without a "keyed" dispensing system. Whenever possible, purchase concentrates in single-treatment (2½-4 gallon) containers (optional).

4. Always dispose of concentrates remaining from the previous treatment. Do not pour remaining concentrate into another container or use in the next treatment. Replace empty or partially full containers with full ones. Whenever possible, standardize equipment so that only one bicarbonate concentrate system is used.

H. Water Treatment System:

1. Dual water treatment system is mandatory

2. Each water treatment system includes reverse osmosis membranes.

3. The water treatment system components are arranged and maintained so that bacterial and chemical contaminant level in the product water does not exceed the standards for Hemodialysis water quality.

4. Proper function of water treatment system is continuously monitored during patient treatment and be guarded by audible or visual alarm that can be heard or seen in the dialysis

treatment area in case performance of the water treatment system drops below specific parameters. 5. Written logs of the operation of the water treatment system for each treatment day are in place. 6. Procedure guidelines for Disinfection of Reverse Osmosis Machine and Loop as recommended by the manufacturer are in place. 7. No Hemodialysis procedure is performed during disinfection of the water treatment system and the loop. 8. Microbiological testing of the treated water from the water treatment system and the loop is done regularly and preferably monthly. 9. For dialysis unit performing HDF, testing of treated water for endotoxin at regular interval is needed. 10. Written record and results of microbiological and chemical testing of water are in place and reviewed. Corrective action is recorded if indicated.

I. Reuse of Haemodialyzers and related devices

1. Procedure guidelines for dialyzer reprocessing are in place.
2. Testing for presence of disinfectant in the reprocessed dialyzer before rinsing and absence of disinfectant after rinsing are performed and documented.
3. Each dialyzer is clearly labeled and identified to be re-used by the same patient.
4. Routine disinfection of active and backup dialysis machines are performed according to defined protocol. i.e HD Machine shall be disinfected after every dialysis session with 20 minutes of Citric Acid, to avoid cross contamination. Also end of the day 1hour of Citric and thermal dis-infection shall be done to all HD machines. The same shall be documented

J. Other Activities for patient care

1. Blood chemistry and haematocrit (or hemoglobin) of each dialysis patients are checked at regular interval (preferably every month ) to ensure patient's well being and viral markers be tested every 3 months (HIV/HBsAg/HCV)iPTH and vitamin-D should be done every 6 monthly.
2. Contingency plan or procedures are available in case of equipment failure, power outages, or fire so that the patient healthy or safety can be ensured.
3. Drill for CPR and emergency conditions outlined are performed regularly.
4. Routine disinfection of active and backup dialysis machines are performed according to defined protocol. Documentation of absence of residual disinfectants is required for machines using chemical disinfectant.
5. Samples of dialysate from machines chosen at random are cultured monthly. Microbial count shall not exceed 200 colony forming units per millilitre (cfu/ml) for HD and shall not exceed 10 –1 cfu/ml for online HDF before IV infusion into the patient's circulation. Periodic testing of inorganic contaminant is performed.
6. Repair, maintenance and microbiological testing results of the hemodialysis machine are recorded with corrective actions where indicated.
7. All staff including

janitorial staff is educated with clear instruction on handling blood spillage on equipment and the floor. 8. All blood stained surface shall be soaked and cleaned with 1:100 sodium hypochlorite if the surface is compatible with this type of chemical treatment. 9. All new dialysis patients or patients who return to the dialysis unit after treatment from high- or unknown-risk areas are tested for HbsAg and Anti-HCV etc. 10. HBsAg/HCV-positive patient should be treated in a segregated area with designated Hemodialysis machines. 11. Carrier of HCV receives hemodialysis using designated machines. 12. Patient with unknown viral status is dialyzed using designated hemodialysis machines until the status is known.

## CONTRACT FORMAT

### Contract Form For Providing Dialysis Facilities

..... (Address of the Tender  
Inviting Authority/Office issuing the contract) CM Contract  
No. \_\_\_\_\_ dated \_\_\_\_\_ This is in continuation to

this office's Notification for Award of contract No ..... dated . Name & address of  
the Service Provider: .....

Reference: (i) Tender Enquiry Document No ..... Dated .....and  
subsequent Amendment No ....., dated ..... (if any), issued by the Tender

Inviting Authority (ii) Service provider's Tender No ..... Dated .....and  
subsequent communication(s) No ..... Dated ..... (if any), exchanged between

the supplier and the purchaser in connection with this tender. THIS AGREEMENT  
made the ..... Day of ..... 2011 between (name of tender inviting authority)

(hereinafter called the Procurer) of one part and ..... (name of service provider)

(Hereinafter called the Service Provider) of the other part: WHEREAS the Procurer is  
desirous that certain services should be provided by the Service Provider, viz, (brief

description of services) and the Procurer has accepted a tender submitted by the  
Service Provider for the Services for the sum of ..... (Contract price in words

and figures) (Hereinafter called the Contract Price), NOW THIS AGREEMENT

WITNESSETH AS FOLLOWS: 1. The following documents shall be deemed to form  
part of and be read and constructed as integral part of this Agreement, viz.: (i) Terms

and Conditions; (ii) Location and Description of Equipment; (iii) Job Description; (iv)  
Manufacturer's Authorisation Form (if applicable to this tender); (v) Purchaser's

Notification of Award. 2. In consideration of the payments to be made by the  
Procurer the Service Provider hereby covenants to provide the Dialysis Services for

the specified facilities in conformity in all respects with the provisions of the Contract.

3. The Procurer hereby covenants to pay the Service Provider in consideration of  
the services , the Contract Price or such other sum as may become payable under  
the provisions of the Contract at the times and in the manner prescribed in the

Contract. 4. The bank guarantee valid till \_\_\_\_\_ [(fill the date)] for an

amount of Rs. \_\_\_\_\_ [(fill amount) equivalent to 10% (minimum) of the cost of the contract value] shall be furnished in the prescribed format given in the TE document, within a period of 15 (fifteen) days of issue of Notice for Award of Contract failing which the EMD shall be forfeited. 5. Payment terms: The payment will be made against the bills raised to the Procurer by the Provider on weekly basis after satisfactory completion of said period, duly certified by the designated official. The payment will be made in Indian Rupees. 6. Paying authority: \_\_\_\_\_ (name of the Procurer i.e. Office, Authority)  
\_\_\_\_\_ (Signature, name and address of authorised official) For and on behalf of \_\_\_\_\_

Received and accepted this contract (Signature, name and address of the supplier's executive duly authorised to sign on behalf of the Provider)

For and on behalf of \_\_\_\_\_ (Name and address of the Provider) (Seal of the provider)

Date: \_\_\_\_\_ Place: \_\_\_\_\_
